I am a full stack web developer with experience in building and maintaining web applications using modern technologies such as React, Node.js, etc. I have a passion for creating user-friendly, responsive, and scalable websites that solve real-world problems. I enjoy learning new skills and exploring new challenges in web development.

WORK EXPERIENCE

Freelance Graphic Designer
Private Clients

05/2021 - 02/2022   *Vadodara*

Achievements/Tasks
- Designed website layouts, templates and unique branded looks.
- Worked with clients to gather and define requirements, establish scopes and manage project milestones.
- Completed final touches for projects before rollout.
- Used Adobe XD, Adobe Photoshop, Canva and other softwares all together to create images and layouts.

Freelance Web Developer
spreadlight.nyc

04/2021 - 10/2021   *Vadodara*

Achievements/Tasks
- Planned website development, converting mockups into usable web presence with HTML, JavaScript, CSS and JSON coding.
- Pulled from PHP, SQL, JavaScript and other back-end library knowledge to bolster programming resources.
- Oversaw technical issues and troubleshooting requests to resolve user problems.

EDUCATION (12 + 4)

Bachelor of Engineering: Computer Engineering
GTU

08/2021 - Present   *Vadodara*
